

Global Clustering Coefficient During Node Removal – Betweenness

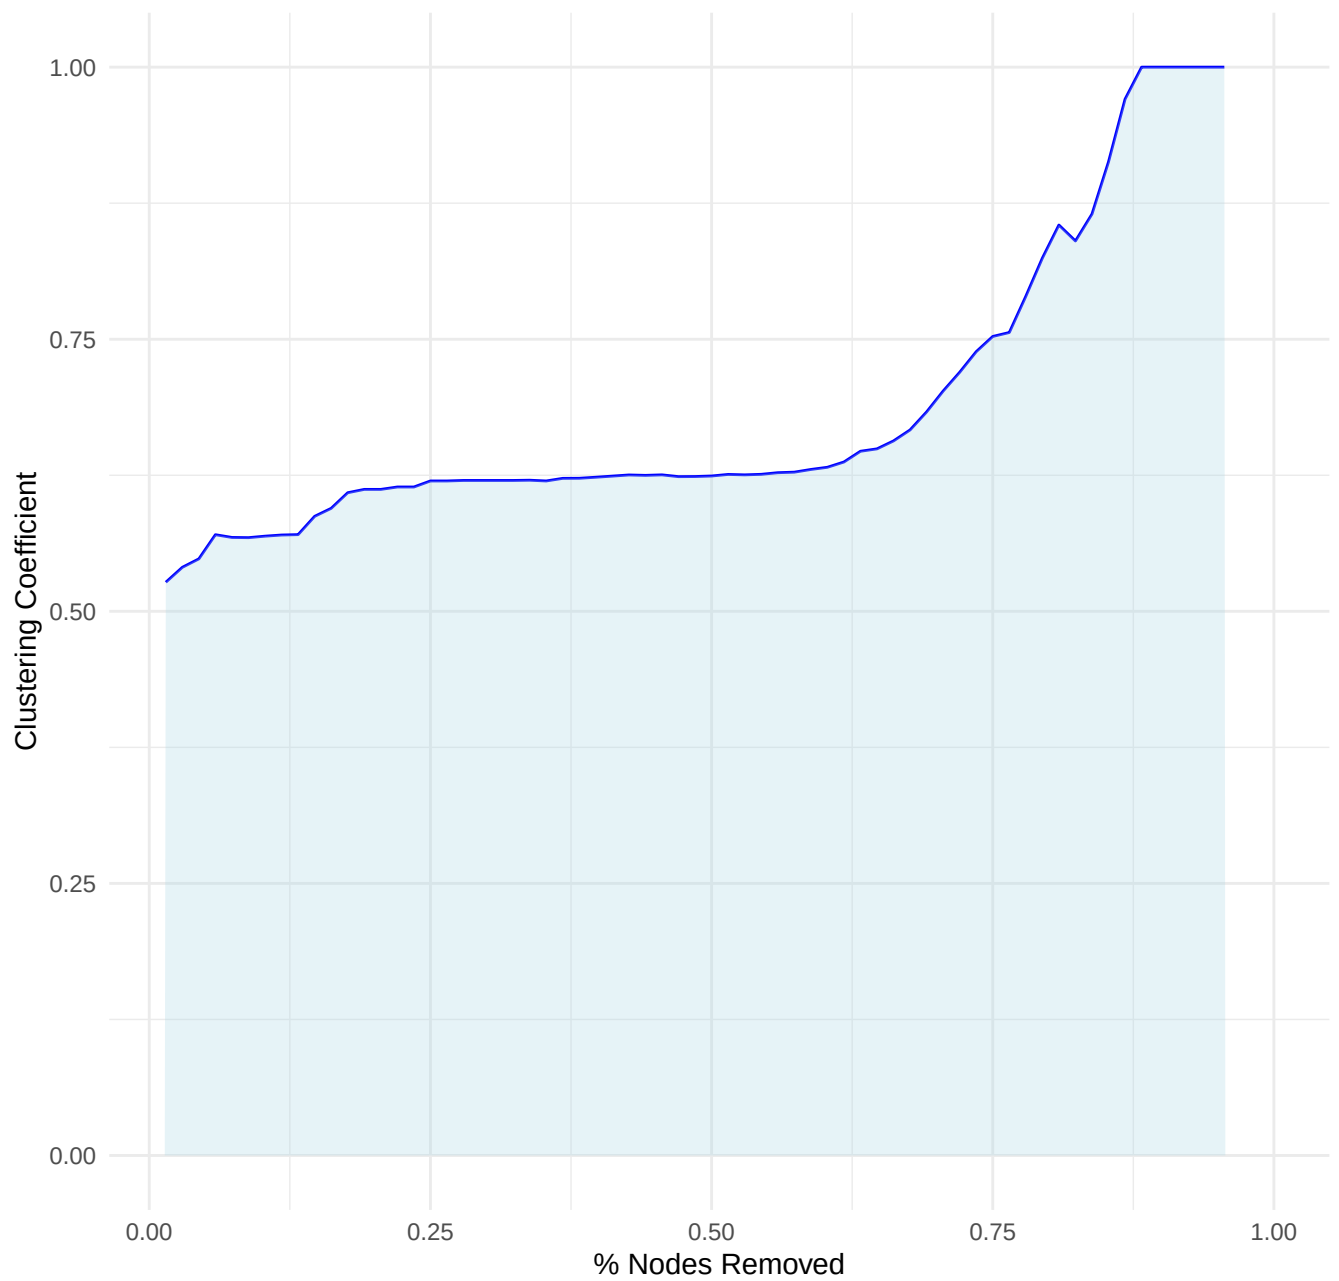

Global Clustering Coefficient During Node Removal – Modularity

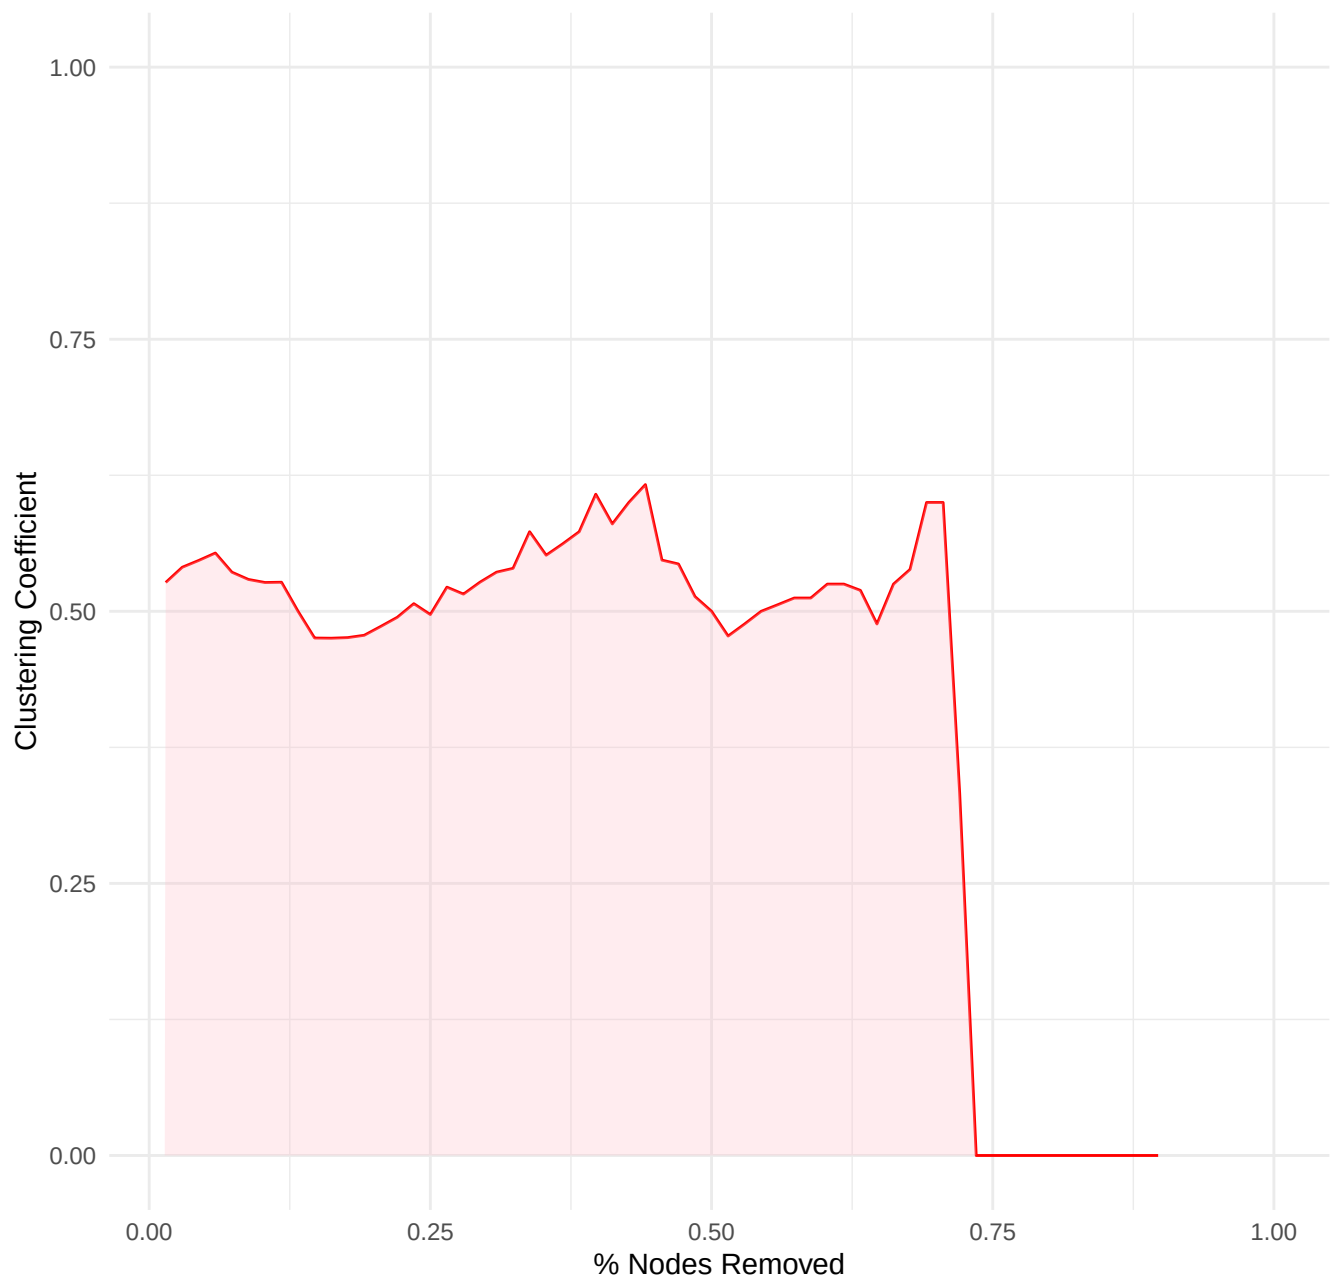

Global Clustering Coefficient During Node Removal – Degree

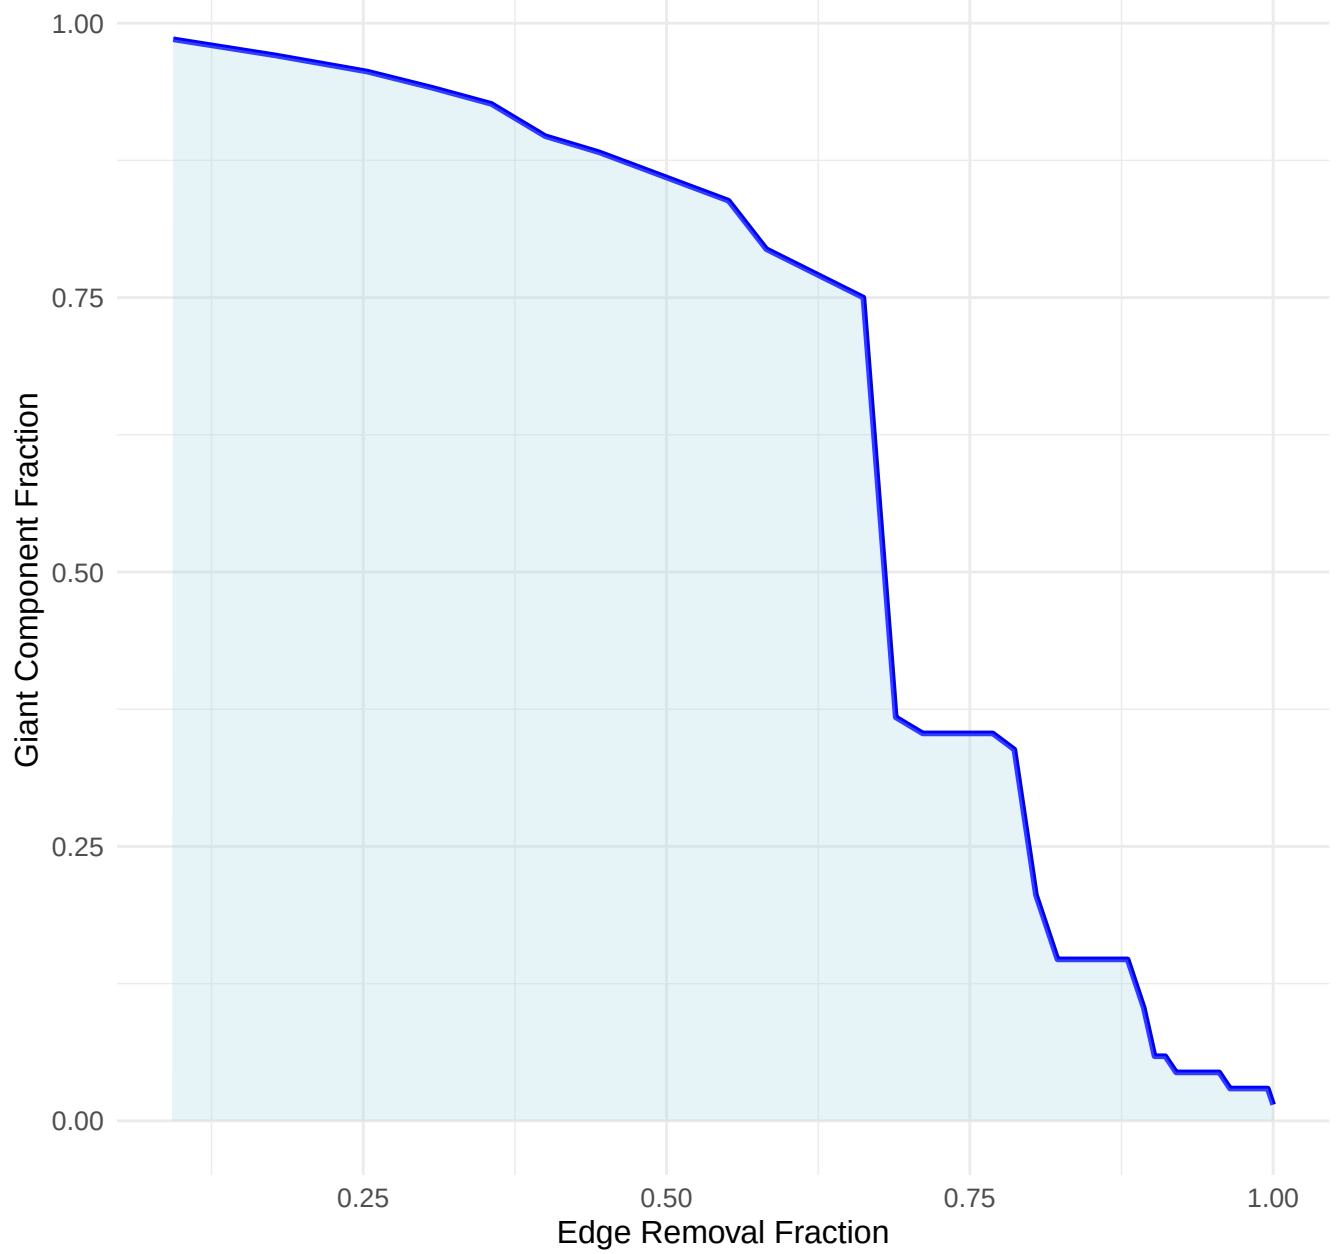

Global Clustering Coefficient During Node Removal – Eigenvector

Global Clustering Coefficient During Node Removal – Closeness

Robustness Analysis (AUC = 0.5828)

Random Removal Robustness Analysis plant_product Diet (Mean AUC: 0.521)

Individual Trials (light gray), Mean Curve (blue), Shaded AUC (light blue)
